

Backpacking 101: Moseley Trail (6 Miles)

Saturday, September 21st at 4PM through Sunday September 22nd at 11AM

Backpack your way through dynamic habitats of Secor Metropark, connect to the Moseley Trail, and spend the night camping at the serene Wiregrass Lake. The hiking mileage is very low to make this the perfect backpacking experience for those ready to try it for the very first time.

Attendance at the pre-trip informational meeting is required (Tuesday, September 17, 6:30-8 PM, Oak Openings Lodge). We will check and fit gear, talk about the trip, and answer any questions.

Fee: \$35 per guest. Backpacks, tents, sleeping pads, sleeping bags, stoves and cook sets are available to borrow. Please indicate which items you need to borrow in the registration system. Program fees include all equipment and camping permits. Meals are not included.

Backpacking and Camping 101 programs are low-cost programs intended to give new campers and backpackers a safe and successful overnight experience. If you have already attended a Backpacking 101 or Camping 101 overnight program, we encourage you to check out our other overnight experiences or attend the Metroparks Backpacking and Camping Club trips. If you have attended a 101 program in the past and you register for another 101 program, your registration will be moved to the waitlist and you will be welcome to join if the trip does not fill with new participants. Thank you for supporting Metroparks' overnight experiences and helping us make outdoor adventures available to all!

Because of the intense planning for this trip, 50% of the fee is considered a non-refundable deposit per the refund policy.

The following packet contains information and resources you need to prepare for the trip including the trip agenda, packing list, and food plan for the trip. Please feel free to reach out to your trip leader with any questions.

Alissa Caple: 419-280-9235 or Alissa.Caple@MetroparksToledo.com

Tentative Schedule

This is the plan, however, it is subject to change due to unforeseen circumstances.

Saturday	<ul style="list-style-type: none"> • 4:00 PM Arrive at Secor Metropark Secor Center • Final pack adjustments • Hike ~3 miles in Secor Metropark and on Moseley Trail • Setup Camp at Wiregrass Lake Metropark • Possible .25-.4 miles to campsite around the lake • Explore Wiregrass Lake • Prepare dinner, eat, evening share
Sunday	<ul style="list-style-type: none"> • 7:30AM: Wake, break camp • Breakfast • Hit the trail • Hike ~3 miles back to the Secor Center • Arrive back around 11:00AM

Total mileage: 6.25 miles

Hike Profile

The terrain on this trek will primarily take place on a smooth gravel trail and other well-worn and maintained trails. No backpacking experience necessary; this trip is perfect for beginner backpackers.

Food Plan

Please eat breakfast before arriving at Secor Saturday morning. We will finish our hike before lunch on Sunday.

Trail food

Participants will need to bring their own food. Generally speaking, you want to select food items that are calorie-dense and high in complex carbohydrates and protein. We will have no access to refrigeration or coolers on trail, so please avoid foods that will spoil. Avoid foods that will squish or crumble easily.

For the trek you will need to pack:

1 dinner – Saturday
 0 lunches –
 1 breakfast – Sunday
 Snacks

Meal Pro Tips

- Pack trail snacks between meals and to supplement meals. Food for a typical day on the trail usually involves breakfast, morning snack, lunch, afternoon snack, and dinner.
- We will take the time to boil water in the morning for coffee/tea/oatmeal/dehydrated meals, but please plan for a relatively quick breakfast. Lunches should be ready to eat and require no cooking. We'll have time to cook for dinner.

- Consider repackaging anything with a lot of packaging to save weight and space. Space is limited, so opt for lightweight, low bulk foods. Calorie needs vary per person, but plan for somewhere between 2500-4000 calories per day.
- Many sources quote that backpackers usually carry 2 pounds of food per person per day. That is a ballpark number and not a hard fast rule, but if your food bag weighs more than 3-4 pounds you should consider more calorie-dense, lighter-weight foods.
- Many backpackers opt for lightweight freeze-dried meals. There are several brands to choose from, and meals can typically be found at Bass Pro, Cabelas, REI, Walmart, or online. Freeze-dried meals typically just require adding boiling water. Pre-packaged varieties usually come sized for 1 or 2 persons/servings, or you can purchase bulk canisters that you can control your own portions by portioning into freezer strength zip-lock bags. For those that do not wish to purchase freeze-dried meals please see the sample meals section below for other trail-friendly meal suggestions.
- For more information on meal planning please see REI's expert advice: <https://www.rei.com/learn/expert-advice/planning-menu.html>

Sample Meals

Breakfast: select 1 or more, supplement with bars, trail mix, dried fruit, jerky etc.

- Cold cereal with dehydrated milk (add water at breakfast)
- Bagel or tortilla with peanut butter
- Instant oatmeal (two packs for most people)
- Tea, instant coffee, hot cocoa
- Dehydrated meals

Dinner:

- Dehydrated or freeze-dried meals (Mountain House, Backpackers Pantry, etc.)
- Any combination of quick-cook pasta, dehydrated potatoes, instant rice, or pasta and rice sides with chicken or tuna packets, canned beans, or nuts for protein. For example:
 - Mac and cheese with chicken or tuna packets
 - Ramen noodles with chicken and instant mashed potatoes
 - Mexican rice with tortillas and chicken packets or beans
 - Thai noodles with peanuts and peanut butter

Snacks: Plan for a morning snack between breakfast and lunch, and an afternoon snack between lunch and dinner. Snacks also make good supplements to meals. Many people find they prefer to bring a mixture of both salty and sweet snacks. Popular snacks include: Goldfish, Cheez-its, crackers, jerky, granola bars/protein bars/energy bars, dehydrated fruit, trail mix, fruit snacks, Teddy Grahams, cookies, and nuts.

Water: Plan to carry 2-3L of water a day. There will be potable water available in camp.

Packing List

All items need to be packed in zip top bags or dry bags to keep them waterproof.

Backpack (available to borrow)

- Internal frame (60-80 liters recommended)
- Pack Cover – waterproof nylon pack cover or extra 30 gallon trash bag (Metroparks packs come with pack covers if you are borrowing)

Sleep systems

- Tent (available to borrow)
- Packable sleeping bag (available to borrow) in stuff sack lined with 30 gallon trash bag. Must be rated to 20 degrees or lower and made of down or synthetic down. We do not want oversized “sleepover bags” that are bulky and heavy. Bags should weigh less than 4 lbs.
- Sleep pad (available to borrow)
- Inflatable pillow (optional) or stuff a jacket into a stuff sack

Clothing

NO COTTON, PLEASE. Cotton does not insulate if it gets wet. Opt for synthetic materials such as nylon, polyester, spandex, or wool. Fleece is good.

- 1 pair good hiking shoes/boots, well broken in.
- Camp shoes (optional but recommended to let feet breathe.) Crocs or light tennis shoes or sandals.
- 1-2 pair of medium weight wool hiking socks.
- 1 set of clean underwear per day
- Sports bras x2 (women)
- Hiking shirt and pants/shorts: 1 set, quick dry, non-cotton required
- Sleep Clothes – these are only for inside the tent. Depending on how cold or warm you sleep you may want a tee-shirt/shorts or long johns. Non-cotton.
- Packable rain gear such as Frogg Toggs (\$40 at Walmart or online). Jacket and pants. If you opt to use an emergency poncho, make sure to bring rain pants as well for your lower half.
- Wool sweater or down or fleece jacket (when paired with your rain suit this should be suitable for most weather conditions). No cotton jackets.
- Wicking base layer (tops/bottoms): Optional but recommended
- Hat, gloves, buff (optional)

Camp Kitchen

- Bowl/plate depending on what you are eating. Light-weight and not glass.*
- Cup/measuring cup*
- Spoon*
- Food bag: medium stuff sack*
- 2-3 gallon zip top bags for garbage*
- Cook kits* (available to borrow)
- Backpacking stove (available to borrow)
- Food* (see Food Plan for meal planning suggestions)

Miscellaneous

- Pocket knife or multi-tool.
- Headlamp or lightweight flashlight (extra batteries)
- Bandana/hankie
- Lip balm (with sunscreen recommended)*
- Toothbrush*
- Travel tube toothpaste* or baking soda in a small bottle
- Personal first aid items*: Staff will have a full first aid kit, but we cannot administer medications. Please bring a personal supply of your pain reducer of choice in case of sore muscles, headache, etc. (a small supply of ibuprofen, antacids such as Tums, Tylenol and aspirin should cover most inconveniences that may occur). Also include Band-Aids, antiseptic wipes, and a foot care kit- Moleskin, foot powder.
- Sun protection: hat with brim, sunscreen*, light long sleeves, sunglasses
- Feminine hygiene items*
- Emergency toilet paper for on-trail stops: ¼ a roll
- Hand sanitizer* or small bottle Dr. Bronner's soap*
- Several yards of duct tape (wrap around a water bottle or hiking poles or keep a small spool in your first aid kit.)
- Hiking poles, if desired (available to borrow)

Water

- Water bottles that add up to 2-3 liters for this short hike
- **OR** 1 bladder water system and at least one water bottle (for ease of drinking in camp/ when your pack is off). Together these should add up to 2-3 L.

Optional

- Camera
- Note pad/pencil
- Whistle
- Watch

Group gear

- Camp Suds* provided – staff will carry
- Group first aid kit provided- staff will carry (you still need to bring your own basics listed above)
- Camp shovel/trowel provided for emergency use on trail- staff will carry
- Repair kit- staff will carry

****Items that will be stored in wildlife-proof location overnight***

Frequently Asked Questions

1. What do I do with my trash on the trail? Will there be garbage cans?
 - a. Trash cans are available at the campsite. We will pack in and pack out all trash and practice Leave No Trace on the trail. For an overview of Leave No Trace (LNT) outdoor ethics: <https://lnt.org/>
2. What if I am a beginner?
 - a. This is a beginner-friendly hike, no backpacking experience required! Our Backpacking 101 educational programs will also help prepare you.
 - b. Training in advance will be key to a fun and successful trek. Practice hiking with a weighted pack. Start with a light pack and low mileage, then slowly increase the weight in your pack and your mileage. Your pack weight for this trip will likely be 25-35 lbs. Use that as the end goal for your training.
3. What will camping be like?
 - a. We will be camping at an established campground at Wiregrass Lake Metropark. We will have stops to use the restroom at flushing toilets before we leave and a portable toilet at Wiregrass Lake. In between these, we will use a trowel/cat-hole system for bathroom purposes on the trail.
4. Not to get into the dirty details, but what does trowel/cat-hole system mean? How do we go #1 and #2 on the trail?
 - a. #1 should be aimed at rocks if possible. Animals are often attracted to the salts and minerals in urine will chew on bark – damaging trees. Using the rock also prevents eroding loose soils.
 - b. Used TP for drying purposes should be packed out.
 - c. A “pee-dana” or bandana used for wiping #1 only is an excellent option. Keep on the outside of backpack for drying and UV sunlight sanitizing.
 - d. #2 needs to be buried in a cat-hole. We have trowels, but the waste does not touch this tool. Use a stick to push the waste in the hole if your aim is not true.
5. Ok, now that I know that, what if I am on my period?
 - a. You cannot bury any products. Multiple ziptop bags are recommended for this.
 - b. Please be prepared as several factors like tenting with others, altitude, or exertion can bring on a menstrual period even if it is not scheduled.
6. Why all the info? This is overwhelming.
 - a. None of this information is intended to scare off potential guests but it is very important to make sure you have a full understanding of this trek. Our hope is that you either have all the information you need or feel comfortable asking us the hard questions! We are very excited about the planning and execution of this trip and hope to fulfill some hiking dreams!

Going in the Woods

Please follow these simple steps when nature calls:

1. Find a spot at least 200 steps from any water source
2. Dig a hole 6-8 inches deep and bury human waste
3. Pack out used toilet paper

When people are not responsible going in the woods they contaminate the water you swim in, fish from, and drink. Bacteria and viruses found in human feces are known to cause hepatitis, blue baby syndrome, salmonella, giardia, and other gastro-intestinal diseases. Remember, the water in the rivers and lakes you visit may flow into your own drinking water supply.
